95%+ Diesel Particulate Reduction "OUTBY" Installation – All Engine Sizes

Wagner LST-5S Scoop with modular DST™ Exhaust Particulate Filtration Package and Deutz BF4M1012EC Engine – 113HP. Installation is made easy using only three main components that can be separately mounted in available space and simply connected using flexible exhaust tubing. Kit is inexpensive, comes complete with all necessary clamps, hardware and connecting pieces and provides 95%+ total DPM reduction and 90%+ total CO reduction, exceeding 2005 DPM requirement of <2.5 grams per hour.
